

OCC Junior Tennis Program

Our junior program is based on a progressive teaching system. We have designed this to ensure that players develop and continue to build on the skills they have learned in the previous level.

This session is 7 weeks long and will progress from week to week. By starting and completing each session the players will realize the maximum benefit.

It is our goal to have our Juniors exhibit good technique and understanding of the game of tennis and prepare them for a lifetime of enjoyment in the sport we love so much.

As always, good sportsmanship will be fostered at all levels.
